This is due to a number of different factors including starting account balance, minimum trade size, the investor's account settings, differences in spread, interest and investment price at the time of investment, and also the difference in fees that may be incurred.
 - e) following/copying the trading decisions of inexperienced and/or unprofessional traders.
 - f) following/copying traders whose ultimate purpose or intention, or financial status may differ from the Follower's; and/or
 - g) The risk that the Follower does not have access to manage the Follower's copied orders

in the trade order.

- i) the risks related to Force Majeure events such as natural disasters, military activities, strikes, riots, interruptions to the functionality of networks and other IT equipment, interruption of the electric power, etc.
- j) the risk that the Follower and/or Provider may misunderstand or misinterpret the Terms & Conditions.

- l) the risk of unforeseen delays when transferring Capital between Accounts or untimely execution of deposit/withdrawal requests
